Hill and Nitro Fever Racing Prepared for Pro Fuel Dragster 2011 Debut

Valparaiso, Ind. – After almost two months away from the track, Dave Hill and the Nitro Fever Racing Pro Fuel Dragster team are ready for their first IHRA race of 2011. They'll be competing at the IHRA Professional season finale, the Northern Nitro Jam, at U.S. 131 Motorsports Park in Martin, Michigan.

“We're elated to be attending our first Nitro Jam event of the year because we can try to back up the 5.45 pass we made at MIR (Maryland International Raceway) last year. The Pro Fuel class is exciting for us, as we can make as much horsepower as possible; there are no limits. The 'run what ya brung' style really appeals to us,” said Hill.

Though it's their first Pro Fuel race of the year, Dave is confident in the team.

“Nitro Fever Racing is ready to compete with the best of the best in the Pro Fuel Dragster category. We're hoping to repeat and improve our season finale race last year, where we took out the championship contender in the first round and went to the finals. I'm looking forward to running good numbers this weekend. Along with running well, I'm really excited to put on a great show for the fans!” claimed the Indiana-based driver.

The Northern Nitro Jam race will take place August 12-13, at U.S. 131 Motorsports Park, in Martin, Michigan. For complete results from the race, visit www.dragracecentral.com or www.ihra.com.
