

FOR IMMEDIATE RELEASE

June 21, 2011

Valparaiso, Ind. --- After an early season full of divisional events and a match race, Dave Hill and Team Nitro Fever Racing are on their way to their first national event of the year, the 5th Annual Summit Racing Equipment NHRA Nationals at Summit Motorsports Park in Norwalk, Ohio. The team has qualified for all but one of the races they have attended and are looking for a similar solid performance in “The Maple City”.

“I’m really looking forward to this weekend’s race in Norwalk. We’ve seen improvement in the car at each race we’ve attended this year, so I’m expecting good results for the Nitro Fever Racing Top Alcohol Dragster. On top of that, the Bader family at Summit Motorsports Park always puts on a fantastic show at the national event, with fireworks and exhibition cars along with the Full Throttle series. Add a little Nitro Fever and it’s sure to be a good time!” said Hill.

Dave and the Nitro Fever A/Fuel team were unable to make first round at the Chicago NHRA divisional race because of an important milestone in the family.

“My son graduated from high school on the morning of eliminations, so we opted to attend the ceremony instead of racing first round. It’s a major once-in-a-lifetime moment, so we had to be there,” exclaimed the service technician from Valparaiso, Indiana.

When the national event wraps up, the team will head home to Indiana, but the car and hauler will remain in Norwalk. The NHRA divisional that was scheduled to take place at the north central Ohio track in May will be run to completion on the weekend following the NHRA Nationals, so in order to cut fuel costs, the track has allowed the teams to leave their equipment at the track.
